THE INITIAL SESSION

CHAIRMAN LEAHY OF SEGREGATED COAL AND ASPHALT COMMISSION ISSUES CALL.

WILL MAKE AN INSPECTION

Purpose is to Make Estimate of Probable Value of Properties in Report That Goes to Governor.

Guthrie, Ok., Jan. 2.—Judge T. J. Leahy of Pawhuska, chairman of the Segregated Coal and Asphalt Commission created by the Constitutional convention, today issued a call for the commission to hold its initial session in McAlester on Jan. 13. In his call Mr. Leahy says:

"It is desired that at this meeting the commission commence the work of inspecting the segregated mineral lands in Indian Territory and gathering such information for their use as may be possible. I think we should spend some two or three weeks, perhaps, in the investigation of the lands and as to the probable coal and asphalt deposit, so that we may be able to make something like an estimate of their probable value in our report to the governor.

"It is also desired that while in McAlester we take up the matter with a representative of the Choctaw and Chickasaw Indians to ascertain what the tribes will probably expect for the lands, and upon what terms the state could probably purchase them. In the event it should be deemed advisable to do so, and in the event congress should approve the plan."

Chairman Leahy believes personally that indications point to the purchase of the segregated lands by the state, the only probable hindrance coming from congress. Within the past few days an order has been issued from the interior department commanding all intruders on the segregated lands to leave immediately.

TO SHIP LIQUOR FROM STATE.

Goods Seized at Guthrie Subject of Order by Court.

Guthrie, Ok., Jan. 2.—Liquor to the value of \$1,500, recently seized here under orders from the county officials was today returned to the owner by the Logan County Probate court, with an order that it is to be immediately shipped from the state.

It is held that in the absence of legislation on the subject there is no authority to seize goods save in places which have been declared public nuisances. The liquor will be shipped to Kansas City.

CHOCTAW INDIAN CADET.

Congressman Carter Appoints Lamar Jackson to West Point.

Ardmore, Ok., Jan. 2.—Congressman Charles D. Carter this afternoon appointed Lamar Jackson of Atoka as a cadet to the United States Military Academy at West Point. Jackson is a full-blood Choctaw Indian and is 17 years of age. This is the first time a full-blood Indian has been appointed to this position. Young Jackson will report for examination this month.

For National Chairman.

Guthrie, Ok., Jan. 2.—A boom has been started for "Atlatla Bill" Murray of Tishomingo, president of the constitutional convention and Speaker of the Oklahoma House, for chairman of the democratic National convention, to be held in Denver this summer. It was announced today that Murray's name would be proposed to the national committee.

Postoffice Safe is Blown.

McAlester, Ok., Jan. 2.—The safe in the postoffice at Crowder, six miles north of here, was blown at an early hour this morning. The robbers secured between \$2 and \$12 in stamps and escaped.

Cities of First Class.

Guthrie, Ok., Jan. 2.—By the governor's proclamation, issued today, Sulphur and Coalburg have been made cities of the first class. Each place made a showing that they have more than 2,500 people.

Two Banks Consolidated.

Enid, Ok., Jan. 2.—The Garfield Exchange and the American State Banks of this city have consolidated under the name of the Garfield Exchange Bank of Enid. The two banks together have deposits of over \$300,000.

BANK DEPOSITS

PLAN TO INSURE MONEY OF DEPOSITORS GROWS IN PUBLIC FAVOR.

NEW STATE SITUATION

Controller Issues a Statement Affecting the Bankers of State of Oklahoma.

Washington, Jan. 2.—The sentiment in favor of providing some form of insurance for National bank depositors seems to be spreading with such rapidity as to indicate that before long national bankers in all parts of the country will be clamoring for the privilege of instituting it. The predicament of national bankers in Oklahoma, as well as the sharp shrinkage of deposits, seems to have served as a warning to the national bankers in a number of other states; that is, they fear the example of Oklahoma in requiring state banks to institute a system of insurance will be followed by a number of other southern and western states. The plan also seems to have advocates among bankers, who have less reason to fear such competition in the near future.

Plan from Pennsylvania.

In anticipation of this situation, but more particularly to restore confidence in the banks, National bankers in a number of states have begun to seek signers to a plan, or agreement, which they hope the controller can sanction under the warrant of existing law. If one may judge from the number of letters of inquiry concerning that have reached the treasury within the last few days, the agitation seems to have made considerable headway, for not only have the letters come in large numbers, but from nearly every state in the Union.

Controller Makes Statement.

"Before an official opinion can be obtained from the Department of Justice regarding the guarantee plan, it will be necessary for some National bank in Oklahoma to make application in writing to the state banking board for permission to receive for its depositors the protection of depositors guarantee fund for the controller to be formally requested to agree with the state banking board and bank commissioner upon what terms and conditions the application may be sustained. When the question again comes before me in this form, I will agree to refer to the Attorney General for an opinion as to my right to enter into an agreement with the banking commissioner and the state banking board, providing the terms and condition upon which National banks may accept the terms and be subject to the liabilities of this law."

The controller, it is supposed means by the foregoing that the reason no opinion can be given to the Oklahoma bankers now, is that formal application to avail themselves of the privilege of Oklahoma law has not been made. The inquiry made in their behalf is regarded as in the nature of a hypothetical question, and both the controller and the attorney general are disinclined to answer questions of that kind.

PROSPECTS OF A CLASH.

Federal Government Said to Be Taking Hand in Liquor Matter.

McAlester, Ok., Jan. 2.—What may prove to be a clash between state and federal authority is found in a rumor current here tonight that Attorney General Bonaparte has held that the federal government will hold control over what was formerly Indian Territory relative to the introduction of liquor.

All the former deputies of Special Agent Johnson have been instructed to report in Muskogee tomorrow.

BY ATTORNEY GENERAL.

Opinion as to Basis for Fixing County Officials' Salaries.

Guthrie, Ok., Jan. 2.—The Attorney General's Department today rendered an opinion that salaries of county officials in what was Oklahoma Territory should be based on the census taken every two years under the state law, while those in what was Indian Territory should be based upon the special government census taken last summer, being the only census ever taken there.

CANDIDATES GETTING ATTENTION

Washington Correspondents Are All Figuring.

Washington, D. C., Jan. 2.—Intense is the interest in Washington and the east in the race for the republican presidential nomination at Chicago next June. President Roosevelt's declaration that under no conditions will he accept a renomination for a third term is accepted as final. This leaves a clear field to the other candidates, and few responsible newspaper men will even make predictions as to the winner.

Secretary of War William H. Taft is everywhere regarded as a big, brainy man who would make a good president, but doubts are frequently heard now about his availability and because of the decided stand taken by him in the Brownsville affair and because of his celebrated strike decision which may array the union labor forces in opposition to the republican nominee should he be elected. The kind of a campaign that would be waged against him by the democratic press because of this decision is known to the republicans of Oklahoma, who will remember how the democratic press exploited this decision to stir up the union labor vote against the republican ticket when Taft was billed to speak at Oklahoma City last fall. Whether the party would be in danger of losing the labor union vote because of this decision or whether it would be possible to educate the union forces to the view that it was right, is a matter that is being given serious consideration now. The union labor forces have the balance of power in a few states and should any considerable number of them desert the republican party the result might be disastrous.

Citizens of Ada should not forget that Saturday night is the time fixed to meet and discuss the municipal status and prospects of Ada. Shall Ada be a city of the first class? Shall the municipal form of city government prevail? At the court house Saturday night. Don't forget.

The city water works are being unduly cursed by patrons because the water has not been the clearest since the big rains. It must be understood that so long as the consumption is greater than the well supply the reservoir water must be used, and since Ada has not a double system of mains the water cannot be separated. See? So quit grumbling. The big lake will soon be filled and soon afterwards settled—then the water will be good and satisfactory.

THE STARRETT TRIAL

TESTIMONY OF BUCK CAHOON PUTS NEW PHASE ON KILLING NEAR BEBEE.

SAYS OTHERS WERE THERE

Claims He Did Not Fire at Starrett But at Another Party.

The trial of Ben Starrett is reaching greater proportions than was contemplated by both state and defense at its beginning. More than twenty witnesses, most of whom for the defense, have been examined and their testimony seems to generally corroborate the account of the killing given in Monday's News.

Quite a sensation occurred, however, when Buck Cahoon, a brother of the deceased, was called to the witness stand. His testimony puts an entirely new phase on the case. He says Starrett fired the first shot which proved fatal to his brother, he falling from his wagon when hit by the ball from Starrett's gun; that his brother fell from the wagon and did not have a gun in his hand when shot. He further testified that Starrett approached the deceased after he had fallen, with gun in hand; that the only words uttered by his brother after the shot was fired was "Oh, Lord." He stated that he did not fire at Starrett, but when shot was fired at his brother he sprang from his wagon with a Winchester in his hand, his pistol dropping from his pocket when he alighted. He says that he was fired upon by a man behind a tree near Starrett's wagon and that they exchanged several shots, he (Cahoon) using his Winchester, shooting four times at his antagonist who was partially shielded by a tree. He further stated that he was in better position to fight with his antagonist than Starrett, whom he says was then approaching his fallen brother. He says he did not see Starrett fire the gun at his brother. That the party behind the tree shooting at him was about 100 yards away. He also testified that he did not know this party, but that he had long, black mustache and that there was with him another party resembling a boy and that he thought he knew him. At this point there was a warm debate between counsel as to whether witness should answer question as to who he thought the party was. The witness testified further that he and Starrett had had previous trouble, but denied that at a particular time when Starrett came to him in his field to discuss some rent settlements, he had threatened to shoot the matter out. He further denied telling Bob Hatcher that he made this proposition to Starrett.

The counsel for the defense will attempt to impeach this witness by producing other witnesses whom it is alleged Buck Cahoon had told soon after the shooting occurred that he knew who the parties were that were with Starrett when the trouble arose. There is much interest in the case, the court room being crowded to its full capacity. J. W. Bolen is assisting the state in the prosecution and Stone & Huffer are diligently serving the defendant.

THE INITIAL SESSION

CHAIRMAN LEAHY OF SEGREGATED COAL AND ASPHALT COMMISSION ISSUES CALL.

WILL MAKE AN INSPECTION

Purpose is to Make Estimate of Probable Value of Properties in Report That Goes to Governor.

Guthrie, Ok., Jan. 2.—Judge T. J. Leahy of Pawhuska, chairman of the Segregated Coal and Asphalt Commission created by the Constitutional convention, today issued a call for the commission to hold its initial session in McAlester on Jan. 13. In an call Mr. Leahy says:

"It is desired that at this meeting the commission commence the work of inspecting the segregated mineral lands in Indian Territory and gathering such information for their use as may be possible. I think we should spend some two or three weeks, perhaps, in the investigation of the lands and as to the probable coal and asphalt deposit, so that we may be able to make something like an estimate of their probable value in our report to the governor.

"It is also desired that while in McAlester we take up the matter with a representative of the Choctaw and Chickasaw Indians to ascertain what the tribes will probably expect for the lands, and upon what terms the state could purchase them. I think it should be decided at this time as to the plan to be followed in the event congress fails to act on the plan.

Chairman Leahy believes personally that indigenous point to the purchase of the segregated lands by the state, the only probable land grant coming from congress. Within the past few days an order has been issued from the interior department commanding all intruders on the segregated lands to leave immediately.

TO SHIP LIQUOR FROM STATE.

Goods Seized at Guthrie Subject of Order by Court.

Guthrie, Ok., Jan. 2.—Liquor to the value of \$1,500, recently seized here under orders from the county officials was today returned to the owner by the Logan County Probate court, with an order that it is to be immediately shipped from the state.

It is held that in the absence of legislation on the subject there is no authority to seize goods save in places which have been declared public nuisances. The liquor will be shipped to Kansas City.

BANK DEPOSITS

PLAN TO INSURE MONEY OF DEPOSITORS GROWS IN PUBLIC FAVOR.

NEW STATE SITUATION

Controller Issues a Statement Affecting the Bankers of State of Oklahoma.

Washington, Jan. 2.—The sentiment in favor of providing some form of insurance for National bank depositors seems to be spreading with such rapidity as to indicate that before long national bankers in all parts of the country will be clamoring for the privilege of instituting it. The prediction of national bankers in Oklahoma, as well as the sharp shrinkage of deposits, seems to have served as a warning to the national bankers in a number of other states; that is, they fear the example of Oklahoma in requiring state banks to institute a system of insurance will be followed by a number of other southern and western states. The plan also seems to have advocates among bankers, who have less reason to fear such competition in the near future.

Plan from Pennsylvania.

In anticipation of this situation, but more particularly to restore confidence in the banks, National bankers in a number of states have begun to seek signers to a plan, or agreement, which they hope the controller can sanction under the warrant of existing law. If one may judge from the number of letters of inquiry concerning that have reached the treasury within the last few days, the agitation seems to have made considerable headway, for not only have the letters come in large numbers, but from nearly every state in the Union.

Controller Makes Statement.

"Before an official opinion can be obtained from the Department of Justice regarding the guarantee plan, it will be necessary for some National bank in Oklahoma to make application in writing to the state banking board for permission to receive for its depositors the protection of depositors guarantee fund for the controller to be formally requested to agree with the state banking board and bank commissioner upon what terms and conditions the application may be sustained. When the question again comes before me in this form, I will agree to refer to the Attorney General for an opinion as to my right to enter into an agreement with the banking commissioner and the state banking board, providing the terms and condition upon which National banks may accept the terms and be subject to the liabilities of this law."

The controller, it is supposed means by the foregoing that the reason an opinion can be given to the Oklahoma bankers now, is that formal application to avail themselves of the privilege of Oklahoma law has not been made. The inquiry made in their behalf is regarded as in the nature of a hypothetical question, and both the controller and the attorney general are disinclined to answer questions of that kind.

CANDIDATES GETTING ATTENTION

Washington Correspondents Are All Figuring.

Washington, D. C., Jan. 2.—Intense is the interest in Washington and the east in the race for the republican presidential nomination at Chicago next June. President Roosevelt's declaration that under no conditions will he accept a renomination for a third term is accepted as final. This leaves a clear field to the other candidates, and few responsible newspaper men will even make predictions as to the winner.

Secretary of War William H. Taft is everywhere regarded as a big, brainy man who would make a good president, but doubts are frequently heard now about his availability and because of the decided strain taken by him in the Brownsville affair and because of his celebrated strike decision which may array the union labor forces in opposition to the republican nomination should he be elected. The kind of a campaign that would be waged against him by the democratic forces because of this decision is known to the republicans of Oklahoma, who will remember how the democratic press exploited this decision to stir up the union labor vote against the republican. If it were Taft was billed to speak at Oklahoma City last fall. Whether the party would be in danger of losing the labor union vote because of this decision or whether it would be possible to educate the union forces to the view that it was right, is a matter that is being given serious consideration now. The union labor forces have the balance of power in a few states and should any considerable number of them desert the republican party the result might be disastrous.

THE INITIAL SESSION

CHAIRMAN LEAHY OF SEGREGATED COAL AND ASPHALT COMMISSION ISSUES CALL.

WILL MAKE AN INSPECTION

Purpose is to make Estimate of Probable Value of Properties in Report That Goes to Governor.

Guthrie, Ok., Jan. 2.—Judge T. J. Leahy of Pawhuska, chairman of the Segregated Coal and Asphalt Commission created by the Constitutional convention, today issued a call for the commission to hold its initial session in McAlester on Jan. 13. In an call Mr. Leahy says:

"It is desired that at this meeting the commission commence the work of inspecting the segregated mineral lands in Indian Territory and gathering such information for their use as may be possible. I think we should spend some two or three weeks, perhaps, in the investigation of the lands and as to the probable coal and asphalt deposit, so that we may be able to make something like an estimate of their probable value in our report to the governor.

"It is also desired that while in McAlester we take up the matter with a representative of the Choctaw and Chickasaw Indians to ascertain what the tribes will probably expect for the lands and upon what basis the state could make the purchase of the lands. It is also desired that the commission be organized in the event of a purchase of the lands.

Chairman Leahy leaves personally that afternoon to the purchase of the segregated lands by the state, the only probable hindrance coming from Congress. Within the past few days an order has been issued from the interior department commanding all intruders on the segregated lands to leave immediately.

Goods Seized at Guthrie Subject of Order by Court.

Guthrie, Ok., Jan. 2.—Liquor to the value of \$1,500, recently seized here under orders from the county officials was today returned to the owner by the Logan County Probate court, with an order that it is to be immediately shipped from the state.

It is held that in the absence of legislation on the subject there is no authority to seize goods in places which have been declared public nuisances. The liquor will be shipped to Kansas City.

BANK DEPOSITS

PLAN TO INSURE MONEY OF DEPOSITORS GROWS IN PUBLIC FAVOR.

NEW STATE SITUATION

Controller Issues a Statement Affecting the Bankers of State of Oklahoma.

Washington, Jan. 2.—The sentiment in favor of providing some form of insurance for National bank depositors seems to be spreading with such rapidity as to indicate that before long national bankers in all parts of the country will be clamoring for the privilege of instituting it. The prediction of national bankers in Oklahoma, as well as the sharp shrinkage of deposits, seems to have served as a warning to the national bankers in a number of other states; that is, they fear the example of Oklahoma in requiring state banks to institute a system of insurance will be followed by a number of other southern and western states. The plan also seems to have advocates among bankers, who have less reason to fear such competition in the near future.

Plan from Pennsylvania. In anticipation of this situation, but more particularly to restore confidence in the banks, National bankers in a number of states have begun to seek signatures to a plan, or agreement, which they hope the controller can sanction under the warrant of existing law. If one may judge from the number of letters of inquiry concerning that have reached the treasury within the last few days, the agitation seems to have made considerable headway, for not only have the letters come in large numbers, but from nearly every state in the Union.

EX-BANKERS IN PRISON

TWENTYONE FORMER FINANCIERS AT LEAVENWORTH.

re Serving Sentences in Government Penitentiary in Kansas—Shown No Favors and They Make Model Prisoners.

Leavenworth, Kan.—Capt. Flavius J. Tygard, the former Butler (Mo.) banker, and the twenty-first member of the bankers' colony in the United States penitentiary here, is in poor health and has spent most of his time in the prison hospital since his arrival.

The advent of Tygard has called attention to the number of former bankers now confined in the prison. There are 21 in all and they are rapidly becoming the most numerous class in the prison, being exceeded now only by the horse thieves and territory lickers.

The ex-bankers are the aristocrats of the prison life, most of them being educated men of refined tastes and accustomed to polite society. But now they are shorn of all outward distinctions, marked by respectability by which they were identified in the old

days before high finance sent them behind the bars.

They wear the prison uniform, they walk lockstep in the convict march, they eat prison fare, they are liable to be hustled into the dungeon if they become refractory.

But the 21 bankers are not refractory. They are model prisoners every one of them. Most of the colony have attained the honor of being made trustees and their work is clerical in its nature. They keep the prison books, check up the prison laundry and otherwise look after the records of the institution.

One long row of cells is known as Bankers' Row. It is on the second floor of the prison where the deputy warden has his office. Many of the bankers occupy cells in that row, but the same rules about locking up lights out, and hours of rising prevail there as elsewhere in the penitentiary.

The ex-bankers are not required to eat with the mechanics and other convicts who do manual labor. But that is not because of any sympathy. They might get their clothes dirty sitting by laborers and dirty clothes would soil the books on which the bankers work.

The penitentiary is a very demo-

cratic place, but, nevertheless, the bankers are recognized as the "upper crust" of the inmates. Here is a list of the members of the "Bankers' Colony," with the sentence of each and the work he is required to do.

Charles H. Thornton, Chicago, Ill., clerk in deputy warden's office, May, 1907, five years, January, 1911.

It has been reported from time to time by guards who have been discharged and by ex-convicts that the ex-bankers have what is termed in the prison a fat snap, but such is far from being the case. Regarding this report Warden McClaughrey says:

"These men are held to the same requirements as to uniform table privileges, marching and other regulations that the other convicts are bound by and in no respect have they privileges that cannot be earned by any other prisoner, be he a horse thief or a murderer."

MAKING OF MATCHES

ABOUT 3,000,000 A MINUTE USED THROUGHOUT WORLD.

Wood Supply for Enormous Demand a Burning Subject—Hundreds of Factories Engaged in the Industry.

Washington—The nations of the world strike 3,000,000 matches every minute of the 24 hours. Nearly one-half of these are ignited in this country. Americans use up the enormous total of 780,000,000,000 a year.

Hundreds of factories over the country are engaged in this industry. One on the Pacific coast covers 240 acres, with 32 miles of railroad which supply the match machines with 200,000 feet of sugar pine and yellow pine logs a day.

For the manufacture of the match the best grade of wood is necessary. Sapwood, knotty or cross-grained timber will not do.

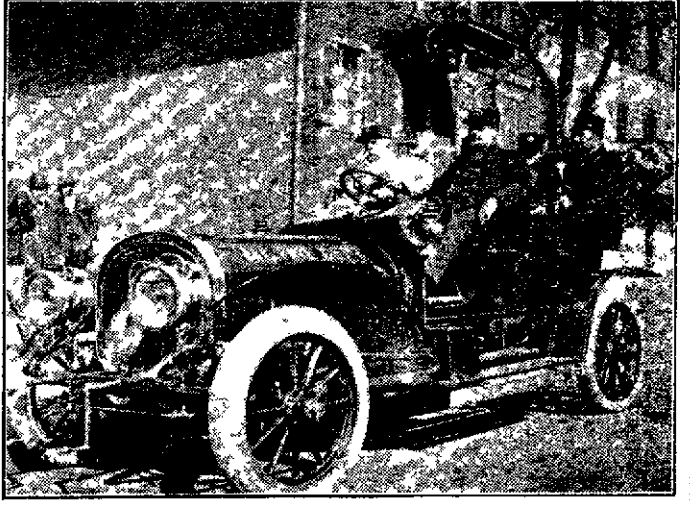

The match manufacturers are as much concerned over the timber supply question as any others. It might be supposed that because matches are small the makers of them would utilize scraps and left-overs. This is never the case. The match machine takes the finest timber and what it rejects goes to the by-product yard. Among the by-products turned out by the large Pacific coast factory are 1,000 doors and 800 sashes daily.

As a matter of fact, it would be impossible to carry on the match business at all at present prices if the rejected lumber were not worked into something else.

This country, although it has the most abundant material and the finest machinery in the world, does not manufacture enough matches to supply the home market. Thousands of dollars' worth are annually imported from Germany, Austria, France, Sweden and other countries where they are made by cheaper labor and poorer machinery and usually from higher priced wood. The imports are largely safety matches which can be struck only on the box or other specially prepared surface.

Nearly every manufacturing company has machinery made specially for its use, and covered by patents, and it also employs processes discovered or devised by its own chemists and mechanics, and kept secret to pre-

vent rivals from obtaining and profiting by them. A single machine has been known to turn out 177,226,400 matches in one day—boxed and labeled ready for shipment.

Some matches are shaved with the grain from sawed blocks, some are cut both ways by saws. In some factories the blocks are boiled to make

them cut easily. By some machines a boiled or steamed log is revolved on its own axis and a shaving—the thickness of a match—is cut round and round. This shaving is at the same time cut into lengths and split into match sticks. Round matches are made by forcing them through dies. The Japanese make paper matches.

'POSSUM LIVES IN TOMB.

Burrowed Into Grave and Made Home in Coffin.

Dickson, Tenn.—While some colored men were digging a grave at a burying ground out in the country from Dickson, an incident happened that has completely severed the friendship of people of their race and the Tennessee opossum in this neck of the woods. Some dogs that accompanied the diggers bayed at a nearby grave. Investigation revealed that a smoothly worn hole extended from the side of the mound to the interior into the hole a switch was thrust, and was answered by a hideous, sepulchral growl. The switch was given a vigor-

ous twist and withdrawn, and out with it came a big, fat opossum. The old varmint had burrowed into the grave, gnawed through the coffin and there made its nest. The grave was a little less than a year old. The old fellow was almost white, and gave evidence of having been an inhabitant of the tomb for some time.

Buy's Saloon to Get a Drink.

Wallace, Idaho.—Jack Frederick, mining promoter, invited prospective investors to have a glass of beer. He found the barroom locked, so bought it for \$5,000. The party drank five glasses of beer and then Frederick sold the saloon back to the original owner for \$4,500.

Calcium's Crew Found Them a Pest in Greenland.

Philadelphia—The captain of the British bark Calcium, which arrived in port recently from Greenland, brought the first news this year from that frigid country. The bark left here on August 25, and, notwithstanding the fact that she was the last of the cryolite fleet to sail, she was the first to get back. Her sister ship, the Alkaline, was forced, through stress of weather, to put into Newfoundland in distress.

The natives reported last winter an unusually stormy one and Capt. Zurcker, the master of the Calcium, found that the summer had not been unpleasant, with the exception of attacks by swarms of bloodthirsty mosquitoes. The general idea that mosquitoes are not to be found in the arctic circle, the crew stated, is a great mistake, as the pests frequently forced the men to retreat while she was loading a cargo of cryolite at Ivigtut.

The Calcium found on her arrival off Greenland that the coast was ice-bound for a distance of 50 miles, but despite this barrier, she managed to work her way to her loading berth at Ivigtut. By the time the vessel was loaded the wind had changed and driven the ice far to seaward, leaving a clear channel, and there was no further difficulty. The Alkaline, a sister vessel, which has been all summer making the run, is expected home this week. The Calcium made the return trip in 33 days.

SAW BAR IN TREETOPS.

Did Circus Act, According to Farmer Noted for Veracity.

Boston—Alcibiades Brown, truthful Burlington (Vt.) farmer, almost got into a fight with his wife when he asserted that he had "seen the bar" that has been waiting in the North Woburn thickets during the past few days.

Alcibiades, crestfallen, hurried away to the center to tell the folks at the store what he saw in the woods earlier in the day.

Brown, according to the story, was taking a cow to the pasture just after sunup, when a loud "Grrrrr" from the top of a high pine tree made him look up. It was the bar he had heard so much about.

With an angry toss of the head the animal bit off a few branches, turned three complete "feetings" and landed safely in another tree, where it snarled and grined in turn. Then the bar stood on its nose and wiggled its feet in the air with glee.

It is the belief of Burlington residents, judging from Alcibiades' description of the animal's mirth, that the bear is glad to have reached the town and is preparing to take up winter quarters there.

TO FLY LIKE A KITE.

The "String" to Bell's Machine to Be Attached to a Tug.

Baddeck, N. S.—For the purpose of conducting the preliminary tests of Dr. Alexander Graham Bell's first flying machine a float has been constructed which supports a cradle capable of being tipped in either direction. On it will be placed the airship, and the float will then be towed behind a powerful tug, and while going at high speed the cradle will be tipped and the airship, exposing for the first time its immense area of silken surface, will rise—so the inventor says. A flying line from the tug will provide it with the necessary momentum to keep it in the air.

The navigator will be stretched out in the place provided for him, and he will be employed in making observations. By taking into consideration the velocity of the wind and the pull on the flying line of the ship the exact power required of the motor will be determined.

NO HOARDING BY PRESIDENT.

Monthly Salary of \$4,166 Deposited Regularly in Bank.

Washington—Theodore Roosevelt is doing his part, as a private citizen, to maintain the national banks on a sound foundation. He gives an example on the first of every month of the foolishness of hoarding money by depositing in one of the leading national banks of Washington the full amount of his monthly salary as president of the United States.

On the first of each month a treasury warrant is drawn to his order for \$4,166.66. The president indorses it on the back and it is sent to the bank.

Owing to autograph fads, the president is never able to tell the amount of his balance. Scores of checks signed by the president fall into the hands of souvenir hunters and are never presented.

Chickens to Pass Judgment.

Columbia, Pa.—It will soon be known whether the adage "Chickens come home to roost" is as sound legally as it has long been metaphysically. Justice O. H. Stover, having heard three witnesses on each side swear respectively that seven chickens belonged to Farmer R. Miller and Mrs. A. M. Sherk, has resolved to see which three witnesses are lying.

The justice will take the chickens, just before dusk, to a point midway between the Miller and Sherk homes, scatter feed enough to keep them busy for a few minutes, retire from the scene, and observe which roost they go to. Then he will enter judgment for either the plaintiff or for the defendant, according as the fowls shall direct.

BEARD WORTH \$15,000.

WHISKERS SOLE MEANS OF WINNING NICE FORTUNE.

Old Lady Who Forgot Name of Her Favorite Nephew Left Money to Twin with the Hirsute Appendage.

South Royalton, Vt.—Allen Pike, a former resident of this place, now living at Appleton, Wis., has a \$15,000 beard. At least Mr. Pike is that much richer because of his whiskers according to a letter received here by one of his relatives.

There is nothing particularly wonderful about Allen Pike's beard except the fact that it grew on his chin instead of upon that of his twin brother Hiram. This was what meant \$15,000 to Pike, for an elderly aunt with a poor memory left her fortune to the twin with whiskers.

The Pike brothers grew up near here. They were as much alike as two peas as far as appearances went, but when it came to dispositions that was another matter. The neighbors said that Allen was kindly disposed and easy to get along with, while Hiram was more assertive. Naturally the latter made more money than the former and when the brothers moved west Allen was in Hiram's employ.

Among the many relatives of the Pikes was Mrs. Abigail Wilson, a frugal woman who inherited some property and who saved all of her principal, as well as considerable interest. Her one peculiarity was her inability to remember names and she was always mixing up Hiram and Allen. She openly confessed that she liked the assertive Hiram best and once confided to a friend that when she died her fortune should go to him. Allen was to be given the household furniture.

As matters turned out, however, Allen became ill with throat trouble and upon the advice of his physician he grew a beard. This developed into the duplicate of Hiram's, and when the beard got its growth folks who were not exceedingly well acquainted with the men got them badly mixed. This greatly troubled Hiram who, being the

moneyed member of the family disliked being mistaken for his brother. He, therefore, cut off his beard.

The transposing of whiskers was not reported to Mrs. Wilson, then living in South Bend, Ind., and she always thought of her favorite relative as supporting a beard. This appears to have led to a most unusual error.

About a month ago Mrs. Wilson was suddenly taken ill and, learning from her physicians that she probably had but a few hours to live, she sent for her lawyer and made her will. In her weakened condition she could not remember whether Hiram or Allen was her favorite, but she did know, or thought she knew, that the object of her affection wore a beard. She therefore willed all her property, save her household effects, to "the son of my cousin, Samuel Pike, who has a black beard, and the remainder of her estate to the son of Samuel Pike who has no beard and who is a brother of the one with a beard."

At first Hiram declared he would contest the will, but it is now said he will allow it to be probated without protest.

PADEREWSKI FEARS WOMEN.

Nervous Disease Takes This Form and He Is Closely Guarded.

Washington—Ignace J. Paderewski is suffering from fear of women. It is a form of neurasthenia, a disease with which the pianist has been afflicted until recently. His managers say that Paderewski has recovered from the disease, but this one symptom remains unabated.

When Paderewski is on a tour all in his retinue see to it that the stage entrances are kept guarded while he is on the platform so that no woman can enter. If at the completion of a performance he sees a woman in the wings or waiting to speak to him anywhere he will not come off the stage.

Paderewski was in the city the other day and this fact about him became known through inquiries made as a result of the extraordinary precautions taken to prevent his meeting any women.

Should be the "Simmer On."

Original Story of Naming of Cimarron River in Oklahoma.

Oklahoma City, Okla.—Many stories as to how the Cimarron river in Oklahoma was named have been told.

It is claimed by some that the name is an Indian word and it means red. It is true the river looks red when it is high and the whirling water stirs up the red sand at the bottom. The most likely story, however, is thus related.

Many years ago a band of explorers and hunters, probably from New York or Boston, were going over this country and came to this river where they camped for several days. While in camp a large pot of beans was prepared for boiling, probably to break the monotony of the fresh meat which had been about their only food for some time.

A man was left in camp to look after the beans, and the others went for their daily hunt. On returning to dinner the cook informed his comrades that the beans had not cooked enough and would not be ready for eating before supper. Accepting the situation as best they could, the little band ate dinner and all except one returned to their hunt. The fire was kept going under the pot all afternoon, and the hunters, with their appetites keenly whetted by the day's

exercise felt that they would certainly eat beans for supper.

But on returning to camp in the evening the same story greeted them as at noon. They were disappointed and resolved to cook those beans, if it could be done. Every possible effort was made, but to no avail. After the third day they decided to break camp, and as the crowd was taking its departure they looked back at the beans, which were still cooking, and all joined in saying, "Cimarron."

The exact place they stopped is not known, but it was there they told their story, and from that day to this the river has been called the Cimarron.

Wild Rides to Test Engines.

Lima, O.—Five men will be shot through space at cannon ball speed in a test of locomotives to be made by the Pennsylvania railroad on the Fort Wayne-Crestline division in a few days. The men will be placed in specially constructed boxes on the pilots of the locomotives and will make observations while the engines are going at top speed. A call for volunteers for this service met with many responses from brave railroaders. Five locomotives of different types will be tested as to their respective merits as to speed, coal consumption and steam pressure.

SUN TO KID ITS FACE
Eclipse Occurred in Oklahoma Between 2 and 3:30 O'clock.
Watch for the eclipse of the sun between 2 o'clock and 3:30 o'clock this afternoon.
By the aid of smoked glasses the shadow on the face of the sun may be easily discerned from Oklahoma City, according to the advice from the astrologers. The total eclipse, however, will occur in mid-ocean, the line of totality extending from the West coast of Panama into the Pacific ocean for a distance of 2,000 miles. The eclipse will be visible to those portions of the southern states south of a line drawn from the northeastern extremity of Florida in a northwesterly direction to St. Louis changing to a southwesterly direction and extending to the southern part of California.

Mass Meeting.
Citizens of Ada should not forget that Saturday night is the time fixed to meet and discuss the municipal status and prospects of Ada. Shall Ada be a city of the first class? Shall the municipal form of city government prevail? At the court house Saturday night. Don't forget.

The city water works are being unduly cursed by patrons because the water has not been the clearest since the big rains. It must be understood that so long as the consumption is greater than the well supply the reservoir water must be used, and since Ada has not a double system of mains the water cannot be separated. See? So quit grumbling. The big lake will soon be filled and soon afterwards settled—then the water will be good and satisfactory.

J. B. Ingram went to Sasakwa today.

THE STARRETT TRIAL

TESTIMONY OF BUCK CAHOON PUTS NEW PHASE ON KILLING NEAR BEEBE.

SAYS OTHERS WERE THERE

Claims He Did Not Fire at Starrett But at Another Party.

The trial of Ben Starrett is reaching greater proportions than was contemplated by both state and defense at its beginning. More than twenty witnesses, most of whom for the defense, have been examined an dtheir testimony seems to generally corroborate the account of the killing given in Monday's News.

Quite a sensation occurred, however, when Buck Cahoon, a brother of the deceased, was called to the witness stand. His testimony puts an entirely new phase on the case. He says Starrett fired the first shot which proved fatal to his brother, he falling from his wagon when hit by the ball from Starrett's gun; that his brother fell from the wagon and did not have a gun in his hand when shot. He further testified that Starrett approached the deceased after he had fallen, with gun in hand; that the only words uttered by his brother after the shot was fired was "Oh, Lord." He stated that he did not fire at Starrett, but when shot was fired at his brother he sprang from his wagon with a Winchester in his hand, his pistol dropping from his pocket when he alighted. He says that he was fired upon by a man behind a tree near Starrett's wagon and that they exchanged several shots, he (Cahoon) using his Winchester, shooting four times at his antagonist who was partially shielded by a tree. He further stated that he was in better position to fight with his antagonist than Starrett, whom he says was then approaching his fallen brother. He says he did not see Starrett fire the gun at his brother. That the party behind the tree shooting at him was about 100 yards away. He also testified that he did not know this party, but that he had long, black mustache and that there was with him another party resembling a boy and that he thought he knew him. At this point there was a warm debate between counsel as to whether witnesses should answer question as to who he thought the party was. The witness testified further that he and Starrett had had previous trouble, but denied that at a particular time when Starrett came to him in his field to discuss some rent settlements, he had threatened to shoot the matter out. He further denied telling Bob Hatcher that he made this proposition to Starrett.

The counsel for the defense will attempt to impeach this witness by producing other witnesses, whom it is alleged Buck Cahoon had told soon after the shooting occurred that he knew who the parties were that were with Starrett when the trouble arose. There is much interest in the case, the court room being crowded to its full capacity. J. W. Bolen is assisting the state in the prosecution and Stone & Huffer are diligently serving the defendant.

Archdeacon H. B. Smith of the Oklahoma Diocese of the Episcopal church conducted an important service at the Presbyterian church Thursday evening. His subject "Thy Kingdom Come" was ably handled and those present report a profitable service. Arrangements were made for the organization of a Ladies' Guild. Banks were robbed at Kanawa, McCurtain and Fairmount on Wednesday and Thursday.

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr. Shoop tells mothers everywhere to give it without hesitation, even to very young babies. The wholesome green leaves and tender stems of a lung-healing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching lungs. The Spaniards call this shrub which the Doctor uses, "The Sacred Herb." Always demand Dr. Shoop's Cough Cure Sold by G. M. Ramsey.

SUN TO KISS ITS FACE
Eclipse Occurred in Oklahoma Between 5 and 6:30 O'clock.
Watch for the eclipse of the sun between 5 o'clock and 6:30 o'clock this afternoon.
By the aid of smoked glasses the shadow on the face of the sun may be easily discerned from Oklahoma City, according to the advice from the astronomers. The total eclipse, however, will occur in mid-ocean, the line of totality extending from the West coast of Panama into the Pacific ocean for a distance of 2,000 miles. The eclipse will be visible to those portions of the southern states south of a line drawn from the northeastern extremity of Florida in a northwesterly direction to St. Louis changing to a southwesterly direction and extending to the southern part of California.

Mass Meeting.
Citizens of Ada should not forget that Saturday night is the time fixed to meet and discuss the municipal status and prospects of Ada. Shall Ada be a city of the first class? Shall the municipal form of city government prevail? At the court house Saturday night. Don't forget.

The city water works are being unduly cursed by patrons because the water has not been the clearest since the big rains. It must be understood that so long as the consumption is greater than the well supply the reservoir water must be used, and since Ada has not a double system of mains the water cannot be separated. See? So quit grumbling. The big lake will soon be filled and soon afterwards settled when the water will be good and satisfactory.

J. B. Ingram went to Sasakwa today.

WANTED—A three room house. Apply at Daily News office.

J. J. Mulholland of St. Louis, agent for the Missouri Life Insurance Co., is here looking for a location. He has visited many towns in the state in search of a good place to reside and Ada was chosen.

THE STARRETT TRIAL

TESTIMONY OF BUCK CAHOON PUTS NEW PHASE ON KILLING NEAR REBECE.

SAYS OTHERS WERE THERE

Claims He Did Not Fire at Starrett But at Another Party.

The trial of Ben Starrett is reaching greater proportions than was contemplated by both state and defense at its beginning. More than twenty witnesses, most of whom for the defense, have been examined an dtheir testimony seems to generally corroborate the account of the killing given in Monday's News.

Quite a sensation occurred, however, when Buck Cahoon, a brother of the deceased, was called to the witness stand. His testimony puts an entirely new phase on the case. He says Starrett fired the first shot which proved fatal to his brother, he falling from his wagon when hit by the ball from Starrett's gun; that his brother fell from the wagon and did not have a gun in his hand when shot. He further testified that Starrett approached the deceased after he had fallen, with gun in hand; that the only words uttered by his brother after the shot was fired was "Oh, Lord." He stated that he did not fire at Starrett, but when shot was fired at his brother he sprang from his wagon with a Winchester in his hand, his pistol dropping from his pocket when he alighted. He says that he was fired upon by a man behind a tree near Starrett's wagon and that they exchanged several shots, he (Cahoon) using his Winchester, shooting four times at his antagonist who was partially shielded by a tree. He further stated that he was in better position to fight with his antagonist than Starrett, whom he says was then approaching his fallen brother. He says he did not see Starrett fire the gun at his brother. That the party behind the tree shooting at him was about 100 yards away. He also testified that he did not know this party, but that he had long, black mustache and that there was with him another party, resembling a boy and that he thought he knew him. At this point there was a warm debate between counsel as to whether witness should answer question as to who he thought the party was. The witness testified further that he and Starrett had had previous trouble, but denied that at a particular time when Starrett came to him in his field to discuss some rent settlements, he had threatened to shoot the matter out. He further denied telling Bob Hatcher that he made this proposition to Starrett.

The counsel for the defense will attempt to impeach this witness by producing other witnesses, whom it is alleged Buck Cahoon had told soon after the shooting occurred that he knew who the parties were that were with Starrett when the trouble arose. There is much interest in the case, the court room being crowded to its full capacity. J. W. Bolen is assisting the state in the prosecution and Stone & Huffer are diligently serving the defendant.

WILLIAM JENNINGS BRYAN PRACTICALLY ANNOUNCES CANDIDACY FOR PRESIDENT.

IN NACODOCHEE TALK

Delivers Two Lectures and Is Also Heard From Balcony of a Hotel.

Nacodoches, Tex., Jan. 3.—William Jennings Bryan made his first public political speech during his present visit to Texas to a crowd of 3,000 people here this afternoon.

Mr. Bryan came to this city upon invitation of the Cum Conclio Club, an organization composed exclusively of ladies, to deliver a lecture, but when he was informed that the hall where the lecture was to be delivered was inadequate to accommodate those who desired to hear him he consented to deliver a short public address. He spoke from the balcony of the Redlands Hotel, and the street was crowded with eager listeners.

The speech was only a few minutes' duration, but in it Mr. Bryan practically announced his candidacy for the Democratic nomination for the presidency. At 4 o'clock he spoke to the school children in the high school auditorium and at 4:30 he delivered his speech at the hotel.

Mr. Bryan said the republicans have been in power eleven years, and that the party is less popular now than when it went in. There is only one among the leaders of that party who can lay claim to respectable popularity, he said, and his popularity extends only so far beyond his party as he has borrowed from the democrats. The democratic party is united, while the republicans are hopelessly divided.

He had had some experience with a divided party, he said, and could appreciate what that condition means. Referring to the campaign of 1896, he said that at that time the great corporate interests were in control of the politics of the country, but in that fight the democrats succeeded in taking the political power away from Wall street.

"We have now passed from the valley of the shadow of death," he declared, "and in passing out we see the republicans just entering into the valley, and if they have as hard time as we are likely to see some fun."

Illustrative of the division in the republican party, he said, direct in Indiana Senator Beveridge is a reformer and Vice President Fairbanks a stand-patter.

"Beveridge," he said, "will go about ringing a bell and crying, 'wake up, wake up!' and Mr. Fairbanks comes along with a bottle of chloroform and says, 'Sleep on, Sleep on! I am for reform.' When President Roosevelt first announced his advocacy of railroad regulation I was among the first to call at the White House and bid him God-speed."

In concluding his address Mr. Bryan said:

"I have spoken long enough to satisfy your curiosity. I could not speak long enough to wear out your democracy, and those of you who may have an opportunity to hear a real two president of the United States speak, you can at least say now that you have heard the speak who in two different positions cherished the doctrine that to win going to be a paid life president, and he says the speech coming at again."

Mr. Bryan is expected to be in Oklahoma City for some time, and will deliver several other lectures.

He will also deliver a lecture at the University of Oklahoma.

The next morning he will deliver a lecture at the University of Oklahoma.

FOR CHANGE

STATE BANK COMMISSIONER TO BEGIN EXAMINATION OF INSTITUTIONS TODAY.

NUMBER OVER FIVE HUNDRED

Since taking on of Indian Territory considerable increase in shown.

Guthrie, Ok., Jan. 3.—At a meeting of the state banking board held today the State Bank Commissioner was instructed to begin at once examinations preparatory to placing state banks under the insurance provisions of the bill recently passed by the legislature. It is the board's desire to have the investigations completed by Feb. 1 and to that end the commissioner is empowered to engage as many examiners as necessary. Commissioner Smock stated that he has applications from about fifty who are willing to enter the work. Since the addition of Indian Territory the number of state banks will be swelled to more than 500. It is understood from members of the board that any bank not in condition to secure the insurance will be given an opportunity to equip itself by the expiration of the sixty days contemplated in the Williams-Roddie bill. The Commissioner stated tonight that examinations would begin tomorrow.

WOODS COUNTY CASE.

Appeal from Decision of District Court Effected.

Guthrie, Ok., Jan. 3.—An appeal was taken today from the decision of the district court for Woods County, in failing to make permanent the restraining order against Henry France, Treasurer of Woods County, Ok., from turning over the moneys in the sum of \$90,000 and the tax rolls of Woods County under the territorial regime to the county officials of what now constitutes Woods County, E. N. Winlow of Alfalfa county, formerly a portion of Woods County, on behalf of the taxpayers similarly affected to himself, through his attorneys Snoddy & Sen, today petitioned the state supreme court to make the injunction permanent, pending legislation and set the former decision aside.

By agreement of the contending attorneys and the court the injunction, which was granted by the District Court temporarily and dissolved Dec. 15, will continue in force and effect until it shall have been passed on by the supreme court of the state.

No date has as yet been set by the supreme court for the hearing. It will probably come up the latter part of the present week or early next week.

FOR CITY GOVERNMENT.

Numbers Towns are Seeking Plans for Support of Same.

Guthrie, Ok., Jan. 3.—Many Oklahoma towns are confronted with the problem of securing revenue sufficient to maintain city governments. The constitution limits the taxation to \$1 mills for all purposes, and since prohibition went into effect, it has been a question how cities were to meet current expenses.

The occupation tax plan has been vigorously opposed. And now Oklahoma City has adopted such a plan, and Guthrie has a similar proposition. To build the revenue upon the tax for their lot 25th in the change of the local revenue comes today have shown other towns, reduced their taxes and lost support.

Rush to Incorporate.

Guthrie, Ok., Jan. 3.—There has been an unusual rush of companies to incorporate in Oklahoma since the old laws of Oklahoma Territory are changed. The State department disposed of 1,000 application blanks during the last week; however, only a very small per cent have been returned for filing. Since Nov. 14, statehood day, 300 foreign and domestic concerns have been chartered. The general impression prevails abroad that the legislature will amend all of the incorporating laws of old Oklahoma. There have been over 400 Notarial commissions issued by the new state department.

Opinion of Mr. McGuire.

Guthrie, Ok., Jan. 3.—Congressman Bird McGuire stated here today that he did not think Oklahoma would be granted any additional representation in congress, the right to which was shown by the special federal census of last summer. Mr. McGuire does not express a preference in the presidential race, but thinks the Oklahoma delegation will be favorable to Taft or Roosevelt.

This is an increase of 1,000,000 in the last 20 years over the 20 preceding years, and the appalling part of it is that two-thirds, or nearly 800,000, of these divorces have been granted, says the New York Sunday Herald.

Marriage must be made more honorable. Its obligations must be lifted to a higher level. In a single word the correction of the writ of divorce, in the case of all other evils, must, with the facility, depend upon higher spiritual ideas, nobler characters and more religious conceptions of all the duties and obligations of life in the human relations. TEN INJURED BY BOMB.

The K. K. City First National Party Wrecked.

Kansas City, Mo., Jan. 4.—The consensus of expert opinion tonight is that the explosion in the beautiful marble building of the First National bank here this afternoon was caused by dynamite or some other high explosive. A piece of pipe believed to have been part of the bomb was found late today in the wrecked basement.

A motive is lacking, but the bank officials and the police incline to the belief that the explosion was either the work of a crank or that the bomb had been secreted in the basement by would-be robbers for future use and had been touched off prematurely. No arrests have been made and the police are without any definite clue upon which to work.

Joseph Pelch, a Hungarian carpenter of this city, one of the ten injured, was taken to the police station this evening and questioned by the police. No charge was preferred against the man. He said that the police had no connection with the affair and was released. He said he was passing by the building and was cut by flying glass.

The loss is placed at \$10,000 confined almost entirely to the basement. None of the ten injured is fatally hurt and the injuries of only two are considered serious.

Segregated Miners' Lands.

Guthrie, Ok., Jan. 5.—The first step by the legislature regarding the segregated coal and asphalt lands will be the passage of a memorial to congress vesting authority with the secretary of the interior to sell the property with the consent of the Indians. It is hardly probable that congress will consent to that the sale to the state only. Under existing regulations the property has been withdrawn from the market. It was stated today that the memorial may be passed before the report of the coal and asphalt commission is received.

STRIDES IN SOUTH

REMARKABLE RECORD OF PROGRESS SHOWN IN REVIEW OF THE PAST YEAR.

FINE CROP SHOWING

Notable Increases in Agricultural Products During the Past Five Years.

Chattanooga, Tenn., Jan. 5.—The Tradesman's annual issue contains among its important features an elaborate review of Southern progress during 1907, in which the following interesting facts are given:

The principal crops were as follows: Hay, all kinds 7,590,000 tons. Wheat 91,493,000 bushels. Corn 959,743,000 bushels. Oats 67,338,000 bushels. Tobacco 437,139,000 pounds.

"Two notable increases" over the previous year, says the Tradesman, are shown by these figures. Despite the fact that 1907 was unfavorable to agriculture throughout the country, the Southern hay crop was 25 per cent greater than in 1906 and the rice crop increased nearly the same percentage.

During the last five years, however, agriculture has made such progress in the Southern states that the corn crop has increased nearly 50 per cent. The rice crop is five times greater, while as already stated, the fodder crop has enlarged 25 per cent in a single year. In 1900 the value of products of vegetable gardens of the South was \$13,000,000; at present the annual yield of orchards and vineyards in this section is over \$30,000,000 making the sum total of the annual fruit and truck product of the South fully \$150,000,000.

Cotton and Metal Industries.

"During the last cotton year we sent out of the country about 8,500,000 bales of raw cotton, fully two-thirds of the crop; but such is the growth of the cotton industry in the United States that the South now contains 700 mills, operating nearly 10,000,000 spindles, and 1908 will add fully twenty more plants. The states of North and South Carolina are American Lancashires, the two having no less than 400 plants with 6,300,000 spindles and more to come.

"The metal industry, including the mining of ore, shows a notable increase compared with previous years. The total tonnage of iron produced by the Alabama furnaces during 1907 will aggregate about 1,750,000 tons, including the month of December, with a value of \$22,000,000. This is 100,000 tons more than the record for 1906, and about 150,000 tons more than the record of 1905; while the value has increased within the last two years nearly 50 per cent. This remarkable gain is of course, due largely to the rapidly rising price of iron, but the expansion in the smelting industry is also notable.

"Such is the activity in this industry in the State of Kentucky that while the total tonnage of pig iron produced in 1905 was about 64,000 for 1907, it aggregates over 125,000 tons, a gain of fully 100 per cent in two years, while the value of the output of the smelters has actually more than doubled in two years.

"Tennessee also shows remarkable progress for the tonnage of pig iron made in this state in 1905 was but 372,000 tons, while for the present year it will be about 450,000 tons, representing a value of about \$7,500,000 compared with \$5,340,000 in 1905."

Great Increase in Capital Investment. The review contains a statement of the capital invested in general industry in each Southern State in 1905 as compared with 1900, also the value of the industrial output of each state for the same year.

These figures offer, perhaps, the most convincing proof of the expansion of the Southern States. For the total investment of capital in miscellaneous industries increased 80 per cent, while the value of the output of the

JUDGE WEST CONVENES FIRST SESSION IN HIS DISTRICT.

INSTRUCTS JURY

Wants Laws Enforced—Ready for Steady Grind.

Judge A. T. West, of the Seventh Judicial District, arrived from Lohigh Sunday afternoon, and convened the first session of district court since statehood.

In instructing the petty jury he stated that perhaps all were compelled to sacrifice individual interests in responding to the court call, but this was essential to good government, law and order. He expressed himself as being well pleased with the personal appearance of the jurors, predicted that good and equitable conduct would result from their labors.

The following is the list of Grand jurors: W. G. Garrett, E. L. Thomas, J. J. McLeod, Sam Boyd, E. H. McKindree, foreman; H. E. Scifers, J. T. Reed, J. J. Myers, L. F. Cooper, W. M. Baughman, J. S. Beck, E. T. Norvill.

Petty jurors: H. T. Caffee, C. E. Lackey, T. N. Devera, J. R. Rennison, J. K. Seroggins, W. S. Bray, Chas. Cushman, W. C. Huey, C. S. Aldrich, W. T. Hall, Ed Thompson, T. Pelt, W. M. Edmiston, Walter Leonard, W. C. Weatherlee, Tom Lancaster, J. B. Parker, A. A. Bobbitt, J. Boone, E. M. McDonald, R. O. Lawrence, J. F. M. Harris, J. J. Burton, Arthur Cox, Wm. McDaniell, W. J. Bauch, J. K. Strickland, M. M. Saunders, Jno. Murrell, J. H. Cantwell, Dick Jones, W. J. Standridge, A. N. Davis.

EXCEPTED MISDEMEANORS.

Judge West instructs Jury Not to Return Indictments for Misdemeanors Except Otherwise Instructed.

The charge to the Grand Jury this afternoon by Judge West was able and strong, he going in to detail and defining and classifying crime and offenses. There was some surprise, however, when he instructed the jury not to return indictments for misdemeanors unless otherwise instructed. He gave permission, however, to investigate such offenses.

Following is a portion of the charge:

Gentlemen of the Grand Jury: You have been selected by order of the court and by the Grand Jury commissioners to come and serve as grand jurors for Pontotoc County, Oklahoma.

It is your duty as a body as a grand jury to look into all violations of the law and where you find that there has been an offense committed to return indictment to this court. You understand that under the law a man can not be tried for life on his liberty except he has been formerly charged by the grand jury for that offense. Now it will be your duty to look into the committing of all offenses which have been committed in Pontotoc county in the state of Oklahoma. At this term of the grand jury you will not look after any offenses which have been committed prior to Oklahoma becoming a state, further off than the 16th day of last November unless the court further instructs you. Under the constitution of the State of Oklahoma it is made your duty to investigate all offenses of all characters, but you at this time will not turn any indictments into this court for any offense of misdemeanor.

The duty of a grand jury is a very honorable and responsible position. You gentlemen were selected from the county, you are supposed, and do come from all walks of life, supposed to be, and I feel sure, you are men of good character, honorable and upright. It sometimes is a very painful duty when a man is compelled to violate in any capacity where it brings his friends before a court to be tried for their life or liberty. You appreciate as well as the court that in a country like ours every man has to discharge every painful duty to the best of their ability, and it is your duty to investigate all offenses of crime.

Guthrie is again assuming the air of a state capital in a busy season. By squads and squadrons the lawmakers are wending their way back to the seat of grill grinding where during the next five months the momentous task of building a complete state statute will be accomplished. Most of them bear cheerful faces and grateful tidings of having been crowned by their constituents with that priceless laurel invented in the parable of the talents. True, some of the unwhod to ascend to the mountain tops and preach from the temple steeples a doctrine of explanation, clarifying demuddled minds, here and unangling complex situations of opinion there, but they all got the economics they went after and they bring back an air of buoyancy and determination that characterizes them as modern solons in avenues of delectable thought.

Coat pockets are bulging with measures. Even the best informed can not forecast what will be received with paramount importance tags. A few emergency measures remain on the catalog, chief among the mbeing the prohibition bill. The adjective "the" however, is a misnomer here, for there are known to exist several prohibition bills that will be introduced as substitutes for the Billups measure. One of them that is receiving a goodly share of favorable comment eliminates the enforcement commission entirely and introduces the dispensary sections in a new form.

The joint legislative committee appointed to inspect the insane asylum at Norman and the Fort Supply reservation and buildings has prepared a report that will be submitted Monday. Early action on this report and the enactment of necessary laws are to be expected.

An extended debate probably will ensue when a bill is introduced providing for the salaries of state officers whose salaries are not provided by the constitution and their assistants. Each officer has been requested to make a statement showing the necessary costs and recommending salaries. From these statements a bill has been drafted and is said to be ready for introduction.

early.

Senator Redwine during the holidays prepared an anti-trust measure which he will introduce Monday. Senator Brook has completed his resolution memorializing congress for an appropriation with which to dredge the Arkansas river and make it navigable to Muskogee. A bill revoking charters of corporations who remove causes from state to federal courts has an early right of way. A uniform text book bill has been prepared and another bill is ready providing for an extension of 30 days of the time in which a distribution of school money is to be made to the several counties, in order that Indian territory counties may be given time to report their enumerations.

BOLEN AND BARTON DEBATE

Bolen for City of First Class, Barton for Commission Government.

The people of Ada should make it their business to attend the mass meeting at court house tonight, when Ada's immediate future status will be determined.

Judge Barton, mayor of Ada and the Hon. J. W. Bolen, both of whom are students of the situation will deliver the principle addresses, the mayor advocating a commission form of government for Ada and Mr. Bolen a city of the first class. It will be remembered that a mass meeting was held some time ago at which Ada's municipal status was discussed, resulting in a clash of ideas among several, especially between Judges Bolen and Mayor Barton, and it was resolved when the mayor had challenged Mr. Bolen to debate to select this Saturday night for an all round discussion of the proposition. The public is reminded that the matter up to night is extremely important to all. All of us too often know too little about our municipal business. Suppose all of us begin trying to catch on. Something has got to be done and the movement is to start tonight. The mass meeting will vote its preference.

Tonight at the court house at an early hour.

YEARNING FOR OLD FRIENDS.

Gray-Headed Man Wants to Read Boyhood Favorites.

"If I were in the publishing business," said the gray-headed man, "I'd get out a school reader and put into it some of the old poems and stories that were favorites forty years ago. It would do the youngsters good to get acquainted with that ancient and honorable literature, while as for their parents, who sometimes look through a school book seeking in vain for a familiar echo of their own childhood days, why, they would get a whiff of the inspiration of youth that would top at least 15 years off their age. I'd put in that poem about 'Make Me a Child Again Just for To-night,' and that other one where the little girl wants to know if 'God isn't on the ocean just the same as on the land.' Then there are 'The Gambler's Wife,' 'Llewellyn and His Dog,' 'We Are Seven,' and 'Lazy Ned.' I'd print all these old gems and send them in between the speeches of Patrick Henry and Daniel Webster, and that old classic about the contented boy who had no kick against life as he found it, even though he hadn't even a turnip to eat. I'd say my book would be a grand success."

STARRETT CHARGED

Examining Trial Closes Friday Afternoon.

Ben Starrett charged with killing Lee Cahoon near Hobbs last Sunday was bound over without bail to await the action of the grand jury. County Judge Terrell has not authority to grant bail in a case of this character and application before District Judge West will be made by Stone & Huffer upon his arrival in Ada Sunday.

The evidence in this case was varied and plentiful. There seems to have been only two eye witnesses, namely, Starrett and Buck Cahoon, and their testimony is greatly crossed. There is no doubt but that the final contest will be one of the fiercest in the history of Pontotoc county as both defendant and prosecution have many friends who are eager about the outcome. The main point to be contested is who fired the first shot, was Cahoon fired upon before he left his wagon. Circumstances show favorable evidence for each side, and before the end has come there will no doubt be some clever tactics by the opposing counsel.

District Court Monday.

The first term of District Court at Ada will convene here Monday. Judge West will arrive Sunday from his home in Lehigh. Deputy Culver has been busily engaged summoning the petty and grand juries, and Sheriff Smith says by Monday morning all jurors will have been notified. There will be 50 petty and 24 grand jurors summoned. There is much doing about the court house preparatory to the opening session and there will be some important cases disposed of.

There are few towns in Oklahoma that have not a railroad division which have sufficient business to employ the full time of a switch engine.

is getting out on lots of coal, and coal every day, and are selling or- ders for the finished product as rapidly as the capacity will permit. The field is not confined to the nearby towns either. Many states will have the distinction of using the Ada prod- uct, and already car shipments have gone to other states. The plant in op- eration is good to see, for it makes one feel that he really lives in a city, and one where there is much go- ing on. The plant operates its own electric lighting plant and at night Portland Hill looks like a real live city itself.

At a later date we hope to furnish the readers with an elaborate account of this giant institution.

Smith-Stanford.

At 9:15 this morning at the home of the bride's parents, Miss Mattie Smith and Mr. Carl C. Stanford were united in marriage. The ceremony was performed by the bride's pastor, Rev. T. L. Rippey, of the Methodist church, South.

The bride is well known in Ada and nowhere in Ada can there be found a more popular or a more universally loved young woman.

The groom is a popular young citi- zen of Holdenville. There were pres- ent only a few friends and relatives. The couple left on the 9:58 Frisco for Holdenville, amid showers of rice and well wishes from many friends.

May the happy couple live long and never have occasion to marry again.

The Grand Leader Original.

Sale is progressing nicely, and many are taking advantage of the greatly reduced prices. Do not wait until the stock is pick- ed over.

Hendrix Arrested.

Will Hendrix, wanted for the mur- der of his father-in-law near Hart some time ago, who had jumped his bond and who not long since stood a U. S. marshal off with a gun, was arrested on main street today by Dick Couch. A phone message from Mar- shal Chapman at Ardmore was re- sponsible for the arrest. The Ard- more officer will be here this after- noon to take the prisoner in charge.

Starrett Allowed Bail.

Judge West examined testimony in the Starrett case and fixed a bond for defendant at \$5000. Prosecuting attor- ney, Wimbiash, has asked that defend- ant be required also to give a peace bond. Huffer & Stone, for the defend- ant entered protest and the matter was taken under advisement.

T. J. Chambliss returned today from Stratford and other points on the Ok- lahoma Central. He has purchased the Byford bankrupt stock of general mer- chandise at Stratford and until dispo- sition of same is made he will be ab- sent from the city.

Miss Amanda James Haynes has re- turned from a visit in Holdenville.

When the Stomach, Heart or Kidney nerves get weak, then these organs always fail. Don't drug the Stomach, nor stimulate the Heart or Kidneys. That is simply a makeshift. Get a pre- scription known to druggists every- where as Dr. Shoop's Restorative. The Restorative is prepared expressly for these weak inside nerves. Strengthen these nerves, build them up with Dr. Shoop's Restorative—tablets or liquid—and see how quickly help will come. Free sample on request by Dr. Shoop, Racine, Wis. Your health is surely worth this simple test. Sold by G. M. Ramsey.

on his own farm a year ago. It will be remembered that Mr. Harris was one of Ada's substantial farmers dur- ing 1908. He is a cousin to our sub- stantial farmers, T. N. and J. M. Her- rin. He reports that he is well pleas- ed with his new location and consid- ers Shawnee a splendid market, sug- gesting that at one time he received as high as \$2.20 a bushel for pota- toes raised by him. The News appre- ciated a visit from this good farmer citizen and was glad to extend his sub- scription to a good date in the future.

Don't Use a Scarecrow

To Drive Away the Mail Order Well

You can drive him out quickly if you use the mail order houses' own weapon—advertising. Mail order concerns are spending thousands of dollars every week in order to get trade from the home merchants. Do you think for a minute they would keep it up if they didn't get the busi- ness? Don't take it for granted that every one within a radius of 25 miles knows what you have to sell, and what your prices are. Nine times out of ten your prices are lower, but the customer is influenced by the ad- vertising done by the mail order houses. Don't let them get the business.
